THANK YOU FOR SUPPORTING REACH

Dear Donors, Sponsors, and Well-Wishers,

The past few months at REACH have been full of movement—moments of joy, new experiences, and meaningful opportunities that continue to shape daily life for our girls.

From celebrations that brought the girls together to programs that expanded horizons beyond the classroom, this season has been a reminder that growth often happens in the in-between: in shared laughter, new environments, and small but significant firsts.

Most notably, we welcomed a visit from our Trustee, Amin, and his wife, Salina Visram in February. During their time at REACH, we toured several schools, met with administrators to address key challenges, and engaged in discussions around budgeting, day-to-day operations, and strategic planning for the organization's future. This intensive, hands-on visit was especially valuable given that operations are typically managed remotely, allowing for more direct support and on-the-ground insight. During their visit, we also facilitated the purchase of a new bus, ensuring improved transportation for students and staff, as well as certain required renovations.

As always, the support of our generous volunteers, donors, and staff make these experiences possible—creating not just access to education, but a fuller, more vibrant childhood.

With endless gratitude,

Namra Surve
Administrator
&
The REACH Team

Proud Moment for Reach

Our children received their results and have successfully completed the SSC and HSC board Exams. This accomplishment reflects their hard work, dedication, and discipline. On behalf of the board and Trustees we wish them a great future ahead.

CONGRATULATIONS ON YOUR EXCELLENT RESULTS!

SSC & HSC RESULTS 2025-26

Congratulations on your success!
Your hard work and dedication have made us proud.
Wishing you a bright future ahead filled with happiness, achievements, and
endless opportunities.

CELEBRATING OUR FUTURE LEADERS - VISRAM FOUNDATION

CONGRATULATIONS!

WE ARE PROUD OF OUR BRILLIANT STUDENTS FOR THEIR EXCEPTIONAL ACHIEVEMENT IN THE BOARD EXAMINATIONS.

SIMRAN HIRANI
HSC - 89.17%

INSHA GADHIYA
SSC CBSE - 92%

NYASA VIRANI
SSC - 83.40%

Life at REACH

A Celebration Share

A simple but meaningful gesture turned into a day to remember when a donor chose to celebrate his daughter's birthday at REACH. The occasion became a shared celebration, honoring all the girls with birthdays that month.

Children's Day: A Theatre at Home

This year, Children's Day brought the cinema to REACH. Volunteers and donors transformed REACH into a theatre, complete with a big screen, popcorn, and treats. For many of the girls, it wasn't just about the film—it was the experience of it: sitting together, laughing, and stepping briefly into a different world.

Our girls participated in a Scout and Guide Program that built confidence, discipline, and leadership through engaging drills and team-building activities. The program inspired unity, responsibility, and service, empowering our girls to become strong, compassionate citizens.

Annual Day: Stepping Into the Spotlight

At the school's Annual Day, our girls took to the stage with confidence through performances that reflected both discipline and creativity. Moments like these build presence, self-trust, and the ability to stand in front of a room and be seen.

Our girls participated in a Scout and Guide Program that built confidence, discipline, and leadership through engaging drills and team-building activities. The program inspired unity, responsibility, and service, empowering our girls to become strong, compassionate citizens.

Life at REACH

Lakshya Camp – Hyderabad

Organized by the National Council in Hyderabad, Lakshya Camp offered something different: exposure. From stargazing to structured sessions on etiquette, and confidence-building activities, the girls experienced environments that pushed them beyond their routines.

Science Exhibition

The Science Exhibition was held for students from Grade 8 to 12 to explore scientific concepts through innovative models, experiments, and presentations. The focus wasn't just on answers, but on curiosity. The exhibition encouraged critical thinking and a deeper interest in science and technology.

Career Counselling: Looking Ahead

A dedicated counselling session helped students think more concretely about their futures: exploring pathways, asking questions, and beginning to define what comes next. The session provided valuable insights into various career options and helped clarify many of the girls' doubts and concerns. Through interactive discussions, they received personalized guidance based on their interests and strengths.

AI & Python Learning

To keep our students aligned with evolving technology, we organized a special session on AI and Python coding. The session introduced foundational concepts in programming and artificial intelligence, offering a clear view of how technology is shaping the modern world. Through interactive learning and practical examples, students built problem-solving skills and strengthened their understanding of core coding principles. The initiative aimed to encourage them to engage with technology with confidence.

Community, Culture & Connection

Ismaili Business Network Group Exhibition Visit

The Aga Khan Economic Planning Board for India hosted an IBNG exhibition aimed at fostering entrepreneurship. Our girls attended the lively event, supporting local vendors while enjoying games, food, and music in a vibrant, festive atmosphere. Beyond the fun, the outing offered a meaningful shift in pace and an opportunity for connection.

Imamat Day Celebration

Imamat Day commemorates the Imamat, the institution of hereditary spiritual leadership in Ismaili Muslim Islam. Marked by special prayers and ceremonies, the day also brings communities together through cultural programs, acts of service, and giving. The girls celebrated with prayer, henna, dancing, and a shared meal.

Republic Day Mela

Republic Day was marked with an outing to a vibrant mela, a festive fair filled with fun games, delicious food stalls, and lively music, where the girls immersed themselves in celebration and community. The outing also provided a wonderful opportunity for the girls to socialize and connect with the community, fostering a sense of celebration and belonging.

Health & Well-being

Meditation Session

A guided meditation session was held at REACH by the Rotary Club. The session focused on relaxation, mindfulness, breathing techniques, and the importance of mental well-being. The girls learned simple but powerful tools for managing stress and cultivating focus.

Yoga as a Daily Practice and our Trustee, Hanif Somji at a Science Fair

Ongoing yoga sessions continue to support both physical and mental health, helping the girls build strength, balance, and discipline in their routines. This initiative plays a vital role in nurturing a balanced and healthy lifestyle for our girls. Also, our trustees attended a Science Fair at the SNBP School together with Namra, our Administrator.

A Meaningful Addition

Welcoming a New Bus

This season also marked a significant milestone: the addition of a new bus for REACH, generously provided by trustee donations. Beyond transportation, it represents something larger—greater access, safer travel, and expanded opportunity.

Your Support Makes All the Difference

Because of you, REACH continues to be a place where girls don't just study—but live, explore, and grow into themselves with confidence.

Every experience in this newsletter is made possible through your generosity.
